

# UV LED Curing Solutions

## Product Overview

Phoseon Technology provides patented and proprietary LED curing solutions that offer high-performance and long lifetime. The Company is 100% focused on LED technology and provides worldwide sales and support capabilities.

### Company

- In-house R&D
- Internal Manufacturing
- Thermal Management
- Custom Optics

### Products

- Optimized Performance
- Rugged & Reliable
- Extensive Portfolio
- Long Lifetime

### Solutions

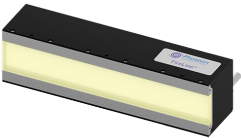

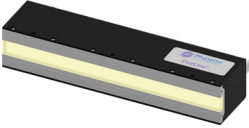

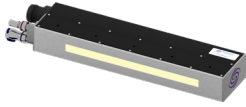

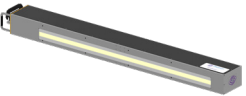

- Patented Technologies
- Application Specific
- Engineering & Maintenance Services
- Scalable Lengths

## Phoseon LED Curing Technology

Phoseon utilizes its semiconductor, solid-state background to develop solutions. Our products combine LED arrays, advanced optics, thermal management, and electronic control to provide simple integration and trouble-free operation. Phoseon is an ISO 9001 certified corporation with over 2 million hours of internal LED lifetime testing.

Phoseon products are available in custom configurations for unique applications. Emitting window specifications refer to the dimensions (L x W). Irradiance measurements are taken at the emitting window. Phoseon systems are CE, RoHS, and REACH compliant.

# Innovative Technology

Phoseon pioneered and patented Semiconductor Light Matrix (SLM)<sup>™</sup> technology driving high-power UV LED technology to manufacture environmentally clean, cool operating, and highly efficient ultraviolet curing products.

Our components are strictly engineered into a system that provides maximum UV energy, controlled curing intensity, and superior performance for demanding applications including those using heat-sensitive and thin substrates.

Building on the SLM foundation are the patented TargetCure<sup>™</sup> and WhisperCure<sup>™</sup> technologies. TargetCure technology delivers precise, stable and consistent curing. WhisperCure offers a low-sound solution with increased UV output.

## Stay Ahead with Phoseon

- More than 300 patents and trademarks
- Surpassing 70,000 hours of operational life
- Shipped over 100,000 units worldwide
- 2 million hours of SLM lifetime testing
- Thorough HALT testing process
- ISO certified company

## APPLICATIONS

Phoseon products are successfully curing adhesives, coatings, and inks in many demanding applications today.
